Flygt A-C Series (Allis Chalmers) Custom Pumps
Non-clog dry pit pumps, split case and vertical column pumps.

Anue Water Technologies
Ozone and oxygen treatment, wet well cleaning, odor and H2S remediation via ozone injection.

ARO Pumps
Air-operated diaphragm pumps, piston pumps and packages.

Belding Tanks
Fiberglass storage tanks including chemical, process, double walled, cone bottom and many others.

ASCO Pumps
Solenoid valves and air operated piston valves designed for aggressive fluid handling including stream, solvent and slurry applications.

Blacoh Pulsation Dampeners
Protect your AODD Pumping System against: water hammer, vibration, breaks and leaks.

AVCO Pumps
Ball valves, actuators and instrumentation devices used in municipal water and wastewater applications.

Cascade Pumps
Axial flow and mixed flow pumping equipment used for flood control, water and sewage treatment, mining, food processing, and many other applications.

Airtech Vacuum
A leading manufacturer of regenerative blowers, liquid ring pumps and rotary vane pumps. Used wherever vacuum and pressure are required.

Emerson
Vibration and pressure transmitters and sensors for suction and discharge lines, as well as streamlined integration to effectively detect cavitation conditions and keep pumps running reliably.

Albin Pumps
High and low pressure industrial peristaltic, hose, and tube pumps used in water treatment, chemical and polymer applications.

Fusion Fluid Equipment - Mixers
Vertically and horizontally mounted mixers for any municipal application from small tote/drum to lime slurry and sludge mixing with anti-ragging propeller technology.

Goulds Pumps

Process pumps; ANSI, In-line, multi-stage, double suction, vertical turbine, split case, slurry and submersible pumps.

Mercer Valve Company

Pressure relief valves featuring patented "Auto Seat Technology"® that increases seal life, reduces repairs, and gives a consistent set pressure.

Goulds Water Technology

Water & wastewater pumps including, submersible, dewatering, high pressure & vertical turbine pumps.

Milton Roy

Chemical metering pumps and packages with hydraulically actuated or critical service diaphragms.

**Product available aftermarket only. Contact your sales engineer for details.

John Crane

Mechanical seals that offer ease of installation and reduction of downtime by providing world-class performance for use with everything from sludge to clean water.

New England Braiding

ANTI-KEystone® II, compression packing designed to extend equipment life.

JFLOW Controls

Wide range of valves, actuators and automation controls for municipal water and wastewater applications.

Pioneer Pump

Centrifugal pumps and packages that offer extreme performance for the toughest applications and industries.

Liquidflo/Endura Pumps

Liquiflo's ENDURA® AB-Series and MC-Series Pumps were designed to meet the demanding needs of the municipal water and wastewater industry.

PolyShield Structural Technologies

Chemical-resistant foundation system constructed of polymer concrete.

March Pumps

Centrifugal seal-less magnetic drive pumps for chemical, industrial, medical, marine, solar and beer pumps, and OEM applications.

Pratt Industrial

Resilient-seated, high performance, and triple offset butterfly valves and actuation for aggressive fluid handling applications.

Primex

Robust engineered pump control panels for a wide variety of municipal water/wastewater applications.

S.P. Kinney

Strainers & valves, water cooled burner valves.

Roper Pumps

Rotary gear pumps used primarily in heavy viscous fluids such as surfactants, and flocculants.

TOPWORX

Valve controllers, switches & sensor technology to streamline end-to-end application performance.

Rosedale Filtration

Liquid filtration products such as bag filters, screen filters, cartridge filters,

Toshiba Flow Meters

Offers an extensive range of gearboxes and helical reducers that feature high radial and axial load-carrying capabilities for your most demanding applications.

SealRyt Corporation

The industry leader in rotating shaft sealing technology. PackRyt Bearing systems, mechanical packing, ring sets, glands followers, etc.

Total Control Solutions

Electronic registration and piston and rotary flow meter solutions for refined fuels, oils, chemical, LPG, and agriculture applications.

SEEPEX Pumps

Progressive cavity pumps, macerators, and controls used in many wastewater and dosing applications.

Tsurumi Pumps

Submersible sewage pumps, aerators, decanters, ejectors and cutter pumps.

SPX

Portable, tank mount, agitators, aerators, flocculators and municipal mixers used in many process applications.

Uniguard Machine Guards

Custom and standard non-metallic ANSI/OSHA - compliant pump and equipment guards.

Vulcan Barges

Custom barges, floating platforms, and pontoons available for many pump designs.
**Available in coated carbon steel, 316 stainless steel, and fiberglass.

Vulcan Pumps

Iron and high-chrome iron hard metal submersible slurry pumps designed for pumping abrasive and corrosive liquids.

SERVICE AND REPAIR

Mechanical Seal Repair - John Crane

Through our partnership with John Crane, we have the resources to rebuild mechanical seals and have your equipment operational for less cost than a new replacement seal.

Tencarva Impeller Balance Service

Each new or repaired impeller is dynamically balanced. You are provided with a copy of the balance report at no additional cost.

Seal Failure Analysis - John Crane

Service that helps to determine the cause of mechanical seal failure. Knowing what caused the failure helps to avoid future failures.

Tencarva Laser Alignment

Laser Alignment reduces vibration levels that reduce premature coupling and bearing failure. This substantially increases the mean time between repairs of the pump.

ITT Procast

Cast replacement of obsolete parts. Reengineered parts that are better than original. ProCast performs engineering, foundry and machining services for the production of metal centrifugal pump replacement parts.

Tencarva Pump Repair

Tencarva has facility-based repair service centers equipped with the equipment and resources to restore any manufacturer pumps, mixers, blowers and other equipment of any size.

Sumitomo Gearbox Repair

Manufacturer gearbox repair, rebuild, and upgrade services on any size of equipment. Repairs are completed to the original specification, using genuine spare parts or reverse engineered replacement components.

Tencarva Specialized Coatings

By applying special coatings such as Belzona and Enecon to the internal wear parts of pumps and equipment, the life expectancy, efficiency and performance can be highly improved.

Tencarva Fabrication Services

We offer equipment skid fabrication and assembly, including piping, valves, instrumentation and electrical integration.

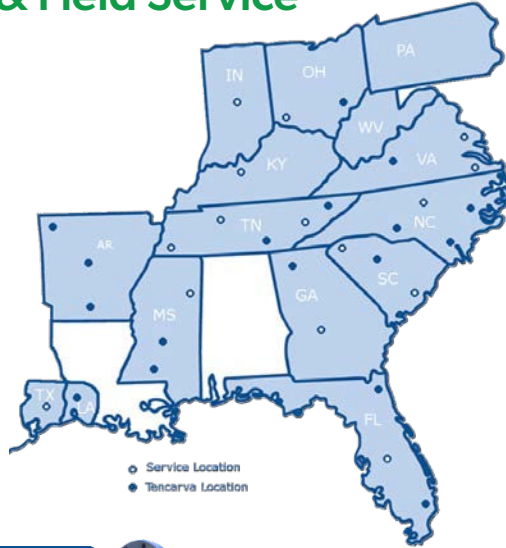

Tencarva Submersible Pump Repair

Submersible pumps up to 350 HP or 7.5 tons. Flygt, KSB, Gorman Rupp, Goulds Pumps, Xylem, Barnes and any and all manufacturers are possible. Flygt certified repair facility available in Richmond, VA.

REPAIR

Tencarva Service Shops & Field Service

- Field Service/Start Up
- Centrifugal Pump Repair
- Vertical Turbine Repair
- Submersible Pump Repair
- Impeller Balancing
- Laser Alignment
- Vibration Analysis

CUSTOM FABRICATION

Equipment Packages

Tencarva designs and builds systems to your specific requirements.

- Multi-Pump Packages
- Booster Stations
- Vacuum and Blower Systems
- Chemical Dosing Skids
- Control Panel Integration
- Certified Surface Polishes
- Digital Instrumentation

How can Tencarva Fabrication help you build the perfect solution for your facility?
