MANUFACTURERS REPRESENTED CONT.

Shelterworks

Prefabricated & custom engineered fiberglass shelters for pumps, electrical control systems, blowers and any other enclosure applications.

Tsurumi Pumps

Submersible sewage pumps, aerators, decanters, ejectors and cutter pumps.

Smart Cover Systems

Sanitary Sewer data collection, remote sensing and alarming technology.

Uniguard Machine Guards

Custom and standard non-metallic ANSI/OSHA - compliant pump and equipment guards.

Toshiba Flow Meters

Offers an extensive range of gearboxes and helical reducers that feature high radial and axial load-carrying capabilities for your most demanding applications.

Vogelsang

Pumping and solids handling technology for viscous, solid laden, process and waste fluids.

SERVICE AND REPAIR

Mechanical Seal Repair - John Crane

Through our partnership with John Crane, we have the resources to rebuild mechanical seals and have your equipment operational for less cost than a new replacement seal.

Tencarva Impeller Balance Service

Each new or repaired impeller is dynamically balanced. You are provided with a copy of the balance report at no additional cost.

Seal Failure Analysis - John Crane

Service that helps to determine the cause of mechanical seal failure. Knowing what caused the failure helps to avoid future failures.

Tencarva Laser Alignment

Laser Alignment reduces vibration levels that reduce premature coupling and bearing failure. This substantially increases the mean time between repairs of the pump.

ITT Procast

Cast replacement of obsolete parts. Reengineered parts that are better than original. ProCast performs engineering, foundry and machining services for the production of metal centrifugal pump replacement parts.

Tencarva Pump Repair

Tencarva has facility-based repair service centers equipped with the equipment and resources to restore any manufacturer pumps, mixers, blowers and other equipment of any size.

Sumitomo Gearbox Repair

Manufacturer gearbox repair, rebuild, and upgrade services on any size of equipment. Repairs are completed to the original specification, using genuine spare parts or reverse engineered replacement components.

Tencarva Specialized Coatings

By applying special coatings such as Belzona and Enecon to the internal wear parts of pumps and equipment, the life expectancy, efficiency and performance can be highly improved.

Tencarva Fabrication Services

We offer equipment skid fabrication and assembly, including piping, valves, instrumentation and electrical integration.

Tencarva Submersible Pump Repair

Submersible pumps up to 350 HP or 7.5 tons. Flygt, KSB, Gorman Rupp, Goulds Pumps, Xylem, Barnes and any and all manufacturers are possible. Flygt certified repair facility available in Richmond, VA.
